WORK EXPERIENCE

Synapse Technology

03/2024 – present
Kathmandu, Nepal

- **Kanoon Portal (Next.js and Go)**
 - Built an online legal resource platform to help users easily access acts, codes, and directives, focusing on user experience, accessibility, and scalability.
- **Nepal Trips (Next.js, and Go)**
 - Contributed to the development of an end-to-end booking platform for Nepal's tourism industry. Developed the backend in Go to support seamless reservations for flights, hotels, and other services.
- **Media Lawyers Association (Next.js)**
 - Built a platform for legal professionals, facilitating discussions, resources, and networking within the media law community.
- **Internet Governance Institute (Next.js)**
 - Developed a secure online platform to promote internet governance, fostering awareness and creating an inclusive digital environment.
- **Self-Help Group for Cerebral Palsy (Next.js)**
 - Created a community-driven platform to connect individuals with Cerebral Palsy, providing a space for sharing experiences and support.
- **LAWASIA Human Rights Conference (Next.js, Express and MongoDB)**
 - Designed and implemented a platform for hosting international human rights discussions, enabling participants to engage in meaningful dialogues.
- **Nepal Bar Association (Next.js and Strapi)**
 - Developed a robust platform for the Nepal Bar Association, enhancing communication and accessibility for legal professionals.
- **Internet Governance Institute (Next.js and Three.js)**
 - A safer and more secure internet for all, Internet Governance Institute and its initiatives are dedicated to promoting internet governance and ensuring a more secure and equitable online environment.
- **Digital Rights Festival (Next.js, Express and MongoDB)**
 - A safer and more secure internet for all, Internet Governance Institute and its initiatives are dedicated to promoting internet governance and ensuring a more secure and equitable online environment.

Software Development Intern
